Acrylic face mounting is a fantastic mounting media for photographic prints. The clarity and depth of the acrylic enhance the colours and vibrancy of your image especially on gloss and metallic paper, while also providing protection and rigidity. The finished product looks professional, has UV protection and is very robust – ideal for galleries, or as a gift.

ACRYLIC OPTIONS:

Acrylic Photo Blocks: Self-standing clear acrylic blocks with face-mounted photographic print protected with a 1mm white lexan backing. Available in 20 or 30mm thickness.

Acrylic Float Frames: Wall mounted clear acrylic panels with 1mm styrene white backing. Included is a u-channel frame on the rear and a wall mount for hanging/mounting. When mounted to a wall the Acrylic Float Frame appears to “Float” 12mm off the wall. Available in 3, 6 or 10mm thick acrylic.

Acrylic Artframe: This product is a lightweight but thick mounting option showcasing your artwork or photo beneath 3mm acrylic on a thick block providing rigidity and 3D relief from the wall. The 25mm trim finish comes in black or metallic, with a wire hanger included.

ACRYLIC FLOAT FRAMES & ARTFRAMES

- Turnaround time for Acrylic Float Frames and Artframes is at least two working weeks.
- Prices below do not include print, please see the large format printing price list.
- Use UCM (United Centimetres) or UIN (United Inches) to find the correct price bracket for your acrylic mounting by adding the width and height. For example, a 40cm wide by 30cm high print = 70 UCM and would cost \$135 on a 3mm Acrylic Float Frame.
